2011 HIA CSR NSW HOUSING AND KITCHEN & BATHROOM AWARDS

KITCHEN OF THE YEAR

WINNER PANACHE KITCHENS 02 9674 3345
This project embodies all that is clever, inspiring, functional and innovative. It charts new ground in terms of layout, composition of elements, degree of difficulty (cutting edge technologies) and the sophisticated palette of materials used. Innovations include the extendable marble table and the 'closet' for baking requirements. Designated activity zones are practical and cleverly designed for the busy family household.

BATHROOM OF THE YEAR

WINNER EVERYDAY HOMES PTY LTD 1300 725 50
This contemporary bathroom showcases state-of-the-art trends in fittings, materials and hi-tech features. An elegant and stylish use of marble is striking and the bold use of accent colour links the bathroom other areas of the house. The fish-bowl glass wall and clever design gives splendid views of the bush and water, the water, whilst the bathroom design affords privacy. A creative utilisation of space and stunning result.

MOST INNOVATIVE USE OF MATERIALS IN A KITCHEN OR BATHROOM

WINNER STEELE ASSOCIATES CONSTRUCTION P/L 02 9319 0333

Judges said this was one of the most innovative kitchens they have ever seen. The project is a statement about using eco-friendly materials which combine to produce an 'industrial aesthetic'. A funky and curious mix of elements including bead-blasted stainless steel, recycled concrete, and blackboard paint with lacquer and gold-leaf is simply stunning.
