

**4TH YEAR APPRENTICE
OF THE YEAR AWARD 2011**

NAME: DOUG CAREY

TRADE: Carpentry

EMPLOYER: Steele Associates Construction

COMMENTS

from Training Employer – Stephanie Ottens

Doug has proven himself to be an apprentice of outstanding calibre, through his attention to detail, commitment to work at hand and his clear sense of foresight in undertaking any task.

His personality and high degree of skill has earned him the respect of all trades on site, despite his young age, and he has all the qualities of a strong leader who lifts the team around him.

Whilst he is entirely dedicated to his work and treats it as a serious exercise, he is also witty and light hearted, raises the morale of other site workers and gets on well with other trades. His charisma and leadership skills make the job site an enjoyable workplace and he encourages high quality work in those around him.

GOALS AND AMBITIONS

Doug has already completed his Certificate IV in Building and should complete his apprenticeship site experience time by the end of this year. He is currently a leading hand on a project which is well ahead of schedule and under budget.
